

# SAFETY UPGRADE FOR NEW & EXISTING MIXERS

## BLADE COVER

Myers Mixers blade covers are made for use with all disperser blades. The Myers Mixers blade cover protects operators from accidental injury when the machine is not in use, and with its clean, safe design, promotes your company's safety values.

Protect blades against damage when equipment is offline.

Blades become worn over time through normal use; using a blade cover provides additional protection against injury to operators, as well as preserving the quality of the equipment.

Cross your t's, dot your i's, and cover your blades—invest in Myers Mixers blade covers for all operational blades!
